Piksters Interdental Brushes – A proven brand leader

Stronger, Stiffer, Plastic Coated Wire

- Resists buckling, brushes last longer.
- Better quality, better value for the customer.

Extra Durable PA612 Bristles

- Deliver superior cleaning ability.
- Quality nylon bristles compress on insertion and spring open on withdrawal, cleaning furcations even better than floss.

Hygienic

- Every brush has a 'Connector' cap which acts as a handle extension and allows two brushes to be joined together.
- The cap allows brush to dry between uses and keeps bristles clean.

Slim Compact Handle

- Allows the user to rotate the brush on insertion.
- Easy efficient cleaning action.
- Less plastic, less waste.

Excellent Value - REUSABLE

- Less expensive per use than many other alternatives, even disposable rubber coated sticks.

Recommended by more dentists than any other interdental brush.*

11 Piksters Interdental Brush Sizes

oral care

New Pikstix Toothpicks

Perfect alternative for price conscious consumers shopping for convenience

- Patented design
- Flexible interdental toothpick made from advanced polymer technology.
- Micro holes and ridges help remove food and plaque.
- Strong support via professional referral campaign.
- Use under braces to protect interdental gaps.
- Small pack size design – reduces shelf footprint.

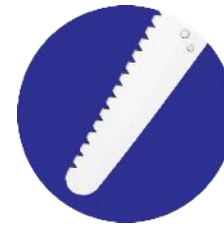

Micro holes.

Trap and remove plaque/food at the point where most decay starts.

Super thin triangular shape.

Fits naturally into tooth spaces.

Fine ridges. Helps remove food.

New Piksters InterPik

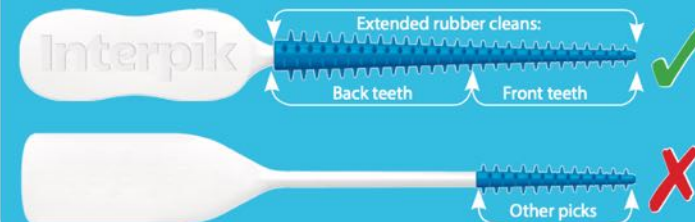

Compelling value for price conscious consumers shopping for convenience

- 5 sizes in 1! Expands the available product market.
- Previous products have limited appeal due to interdental space restrictions.
- Extended bristles provides an enhanced clean.
- Now cleans the entire mouth.

Gently push the Interpik brush between teeth & move back and forth.

One Interpik covers many sizes of interdental space.

Soft rubber disposable interdental brush. New longer extended bristle portion to enable better cleaning of larger spaces in back teeth.

Insert deeper for back teeth.

Competitor brushes do not provide a "One Size Fits Most" product, limiting their audience and leaving the product vulnerable to cannibalization as new products enter the market.

Piksters ECO, Bamboo Range

FROM AUSTRALIA'S #1 BRAND OF INTERDENTAL BRUSHES

New! Bamboo Piksters

▼ **STRAIGHT Piksters**

Bamboo Piksters® Straight use exactly the same brush as standard plastic Piksters - just with a bamboo biodegradable handle instead of plastic.

Available in 2 packet sizes:
 8 pack - 8 brushes of the same size in each pack (sizes 00-6).
 32 pack - 32 brushes of the same size in each pack (sizes 00-6).
 Also available: Assorted 8 pack (sizes 00-6).

Biodegradable and sustainably grown bamboo handle.

Biodegradable packaging

▼ **RIGHT ANGLE Piksters**

Bamboo Piksters® Right Angle has a 90 degree tilt to the interdental brush head which offers the perfect angle for interdental gaps near the rear molars without needing to bend the wires. The larger, easy-to-hold handle provides customers with a better grip without increasing plastic waste.

Caps are made from cornstarch not conventional plastic.

6 pack
24 pack
Variety 4 pack

INFO@PIKSTERS.COM | PIKSTERS.CO.UK | PIKSTERS.COM

- Range of Budget and Premium
- Plant Based (PLA) Brushes – all Biodegrade

Piksters for Kids

Piksters Bug Brush

- 2 to 5 years
- A rubber 'bumper bar' at the end of the brush head reduces the likelihood of pain or an ulcer if the child accidentally hits their gum while brushing.
- Big handle, easy to grip.

Piksters Oral Hygiene Travel Kit

Contains:

- 25gm Junior Toothpaste
- 1 x Junior Classic toothbrush
- 1 x Baby Gorilla floss
- 20 x kids stickers
- 1 x SupaGRIP XP Kid safe, no sharp pick.

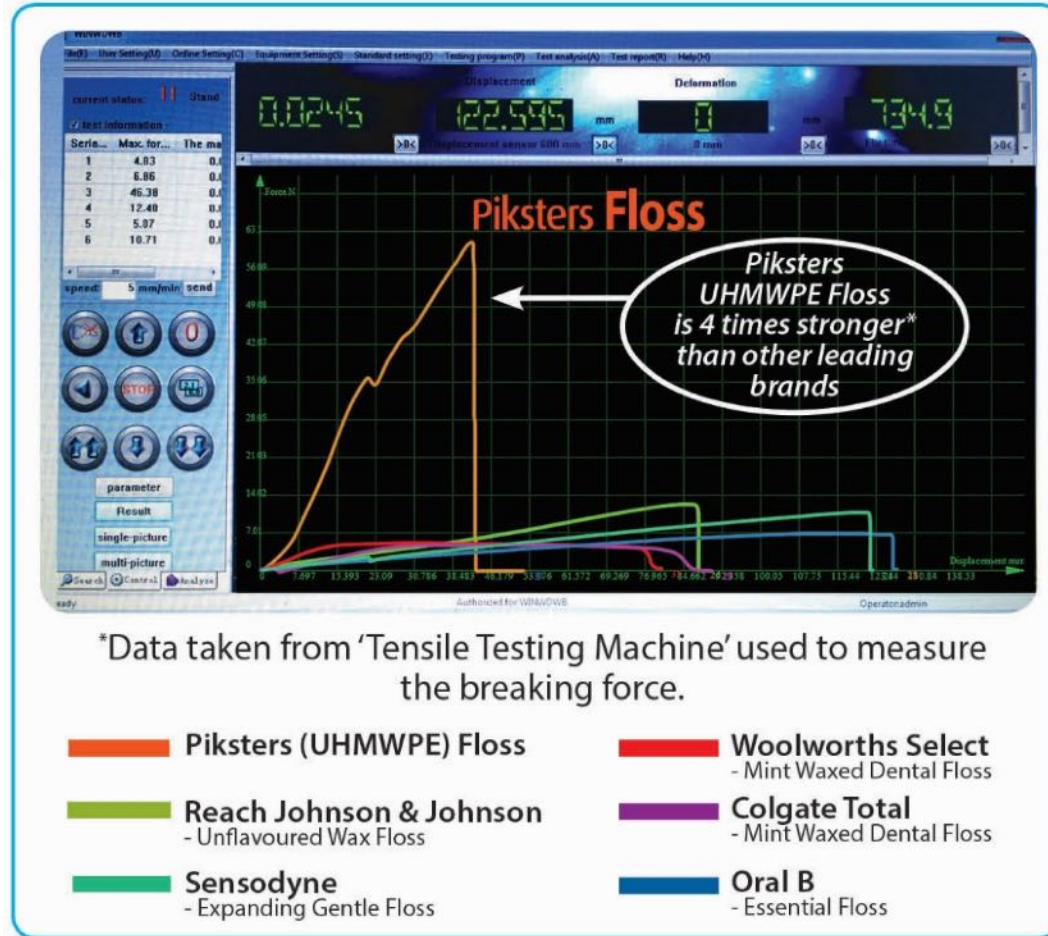

Bathroom Buddies Toothbrush Holders

- Two suction cups on the back gives secure adhesion to the mirror or other surface.
- 10 to collect.
- Encourages teeth cleaning.
- Hygienic storage which allows the brush to dry out between uses.

Piksters Gorilla FLOSS™

- Almost unbreakable on any type of contact point. **Up to 4 times stronger than regular floss.**
- Easier to insert with less force (and risk of tissue trauma) even on sharp or rough contacts!
- NEW ADVANCED (UHMWPE*) EXTRA STRONG FLOSS is made of the same polymer as some bullet proof jackets. Much stronger than Nylon.
- UHMWPE Floss is made from super fine multi-filaments that produce a “scrubbing” action when used. Some people prefer this “scrubbing” action to PTFE.

200 x 8m
floss

30m

2x 8m

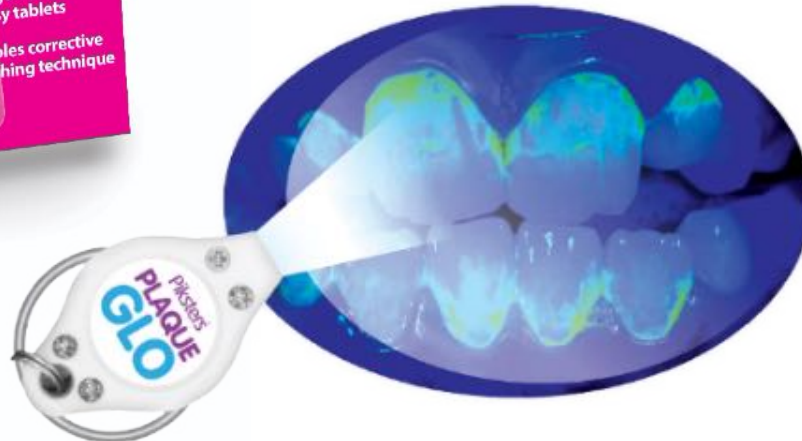

Plaque Glo Plaque Disclosing Toothpaste and Torch

Use as a weekly prevention check

Simply brush teeth and use the included torch to disclose plaque.

- Plaque is ONLY visible under the blue light (torch provided).
- No red stains! No mess, just results.
- Enables correct brushing techniques by identifying key problem areas.
- Be proactive and don't wait to visit the dentist to check your oral health.
- Available in Kids Tropical Flavour and Adult Mint.
