TOOTHPASTES

STOP SENSITIVE TOOTHGEL

INSTANT. BIOACTIVE PROTECTION. FOREVER.

- + Instant relief from sensitivity
 - + Patented BioMin shields teeth for up to 12 hours
 - + Contains no nasties
 - + Cumulative results
 - + Vegan
-
- + Administers a low-level of fluoride at a constant rate over a 12-hour period for ongoing protection
 - + Provides a deeper and more effective tubular occlusion for faster and longer lasting relief
 - + Creates a protective shield that is harder and more acid-resistant than the enamel and that of competing sensitive toothpastes

An aerial photograph of a winter landscape. The top half of the image shows a dense forest of evergreen trees heavily covered in snow, with some branches catching the light and appearing golden. Below the trees is a wide, flat expanse of snow, likely a frozen lake or a cleared path. The bottom half of the image shows a body of water, possibly a lake or river, which is partially frozen and reflects the surrounding snowy environment. The water's surface is broken by small, snow-covered bushes and trees. The overall scene is serene and cold, with a soft, golden light suggesting a low sun.
